

Together  
we can do it!  
But we need  
your help ...

## PROCUREMENT EVALUATION & RE-ENGINEERING TEAM (PERT)

An Action Team Under the Direction  
of the Contractor Purchasing Council

### What the Heck is PERT?

In the simplest sense, we are U!

The Procurement Evaluation and Re-engineering Team (PERT) is chartered under the auspices of the Contractor Purchasing Council (CPC). Our membership includes contractors and Feds (local and HQ) and probably some of your folks. Our primary purpose is to support the DOE complex by discovering and promoting procurement process improvements.

### What can PERT do for me?

We are working for the DOE complex as a whole, which includes you. Certainly we want to help individual organizations with their specific issues, but as our motto and logo indicate, we're all in this together, so our focus is on common DOE procurement issues.

Some examples of what we can provide are:

- Balanced Scorecard (BSC) Training
- BSC verification and validation
- Information on a variety of topics drawing on our complex-wide sources
- Help in finding solutions or improving processes

### Oh, yeah? Show me the MONEY!

Be glad to.

Since its inception in 1995 under the Value-Based Self-Assessment Team, PERT has:

- Developed and provided implementation support for the BSC
- Developed a highly useful home page and an increasingly effective communications network
- Identified and published a skills and capabilities listing available to the DOE Complex
- Conducted and posted extensive benchmarking results on the DOE home page
- Provided a web board that encourages simple communication with us and with others
- Researched BSC software capabilities
- Selected and communicated best practices across the DOE complex
- And much, much more

### Hmmmm! How can I learn more about PERT?

Just let your fingers do the walking.

Punch in:

<http://www.pr.doe.gov/perthome.htm>

and you'll be magically transported to our home page where you'll find such things as our charter, details on all our activities, and links to other great procurement sites.

### Maybe, just maybe, I'd like to participate on the PERT or have someone in my organization do so. Is that possible?

Sure is.

We are always looking for new gray cells and people willing to work to improve the community as a whole. All you have to do is call the chairperson(s) whose name you'll find on our home page.

### Hey, I have a couple of ideas or areas that I believe should be examined. Want to know about them?

You bet!

With today's electronic marvels, you can e-mail your idea directly to any PERT member listed on our home page. Be assured that you will be contacted promptly by the PERT team member best able to discuss your idea. The CPC will approve all ideas resulting in action for the PERT. We'll be sure to keep you informed and involved.

### So what's the BOTTOM LINE?

The bottom line is that if you have a situation that you feel could be improved or an idea which can benefit the DOE purchasing complex, talk to us. And, please,

### CHALLENGE US!!!!!!
